LIST OF TABLES

1. Enrollment (Fall 1983) 1

1.1 Credit Headcount Enrollment in All West Virginia Institutions of Higher Education by Control and Level of Institution, Sex, Attendance Status, and Residence of Student, Together with Total Non-Credit Enrollment, Fall 1983 16

1.2 Credit Headcount Enrollment in Each West Virginia Institution of Higher Education by Residence and Sex of Student, Fall 1983 18

1.3 Credit Headcount Enrollment in Each West Virginia Institution of Higher Education by Residence and Attendance Status, Fall 1983 20

1.4 Credit Headcount Enrollment in Each West Virginia Institution of Higher Education by Level of Student and Attendance Status, Fall 1983 22

1.5 Credit Headcount Enrollment in Each West Virginia Institution of Higher Education by Level of Student and Sex, Fall 1983 26

1.6 Credit Headcount Enrollment in Each West Virginia Institution of Higher Education by Level of Student and Residence, Fall 1983 30

1.7 Credit Headcount Enrollment in Each West Virginia Institution of Higher Education by Level of Student, Fall 1983 34

1.8 Percentage Distribution of Credit Headcount Enrollment in Each West Virginia Institution of Higher Education by Level of Student, Fall 1983 36

1.9 In-State Credit Headcount Enrollment in Each West Virginia Institution of Higher Education by West Virginia County of Residence, Fall 1983 38

1.10 Out-of-State Credit Headcount Enrollment in Each West Virginia Institution of Higher Education by State of Residence, Fall 1983 42

1.11 Full-Time Equivalent Enrollment in Each West Virginia Institution of Higher Education by Regents' Budget Enrollment Categories, Fall 1983 46

1.12 Full-Time Equivalent Enrollment in Each West Virginia Institution of Higher Education by Course Level, Fall 1983 47

2. Degrees Conferred (1982-83)

2.1 Total Degrees Conferred by West Virginia Institutions of Higher Education by Control of Institution, Sex of Student, and Level of Degree, 1982-83. 55

2.2 Total Degrees Conferred by West Virginia Institutions of Higher Education by Level of Degree, Sex of Student, and Control and Level of Institution, 1982-83. 56

2.3 Total Degrees Conferred by West Virginia Institutions of Higher Education by Level of Degree, Control of Institution, and Academic Area of Study, 1982-83. 58

2.4 Total Degrees Conferred by Each West Virginia Public Institution of Higher Education by Level of Degree and Sex of Student, 1982-83. 60

2.5 Number of Different Programs Offered and Total Degrees Conferred by Each West Virginia Public Institution of Higher Education, by Academic Area of Study and by Level of Degree, 1982-83. 62

2.6 Total Degrees Conferred by West Virginia Private Institutions of Higher Education by Level of Degree and Sex of Student, 1982-83. 66

2.7 Number of Different Degree Programs Offered and Total Degrees Conferred by Each West Virginia Private Institution of Higher Education, by Academic Area of Study and by Level of Degree, 1982-83 68

3. Faculty Characteristics (Fall 1983) 73

3.1 Academic Rank of Full-Time Faculty by Institution, Fall 1983, and Five-Year Trends, 1979-83 78

3.2 Highest Earned Academic Degree Held by Full-Time Faculty, Fall 1983, and Five-Year Trends, 1979-83 79

3.3 Highest Earned Academic Degree Held by Part-Time Faculty, Fall 1983, and Five-Year Trends, 1979-83 80

3.4 Full-Time Faculty Members' Years of Experience at Institution of Present Employment, Fall 1983, and Five-Year Trends, 1979-83. 81

3.5 Full-Time Faculty Members' Years of Total Experience in Higher Education, Fall 1983, and Five-Year Trends, 1979-83 82

3.6 Age of Full-Time Faculty, Fall 1983, and Five-Year Trends, 1979-83. 83

3.7 Age of Part-Time Faculty, Fall 1983, and Five-Year Trends, 1979-83. 84

3.8 Sex of Full-Time and Part-Time Faculty, Fall 1983, and Five-Year Trends, 1979-83. 85

3.9 Tenure Analysis of Full-Time Faculty At West Virginia Public Institutions of Higher Education, Fall 1982-83 86

3.10 Average Nine-Month Salary of Full-Time Faculty Engaged Exclusively in Teaching, by Academic Rank (Medical Colleges Excluded), Fall 1983, and Ten-Year Trends, 1974-83. 87

3.11 Average Nine-Month Salary of Full-Time Faculty Engaged Exclusively in Teaching, by Highest Degree Held (Medical Colleges Excluded), Fall 1983, and Ten-Year Trends, 1974-83 88

3.12 Average Nine-Month Salary of Full-Time Faculty Engaged in Teaching and Some Other Function, by Academic Rank (Medical Colleges Excluded), Fall 1983, and Ten-Year Trends, 1974-83 89

3.13 Average Nine-Month Salary of Full-Time Faculty Engaged in Teaching and Some Other Function, by Highest Degree Held (Medical Colleges Excluded), Fall 1983, and Ten-Year Trends, 1974-83. 90

3.14 Number of FTE Resident Teaching Faculty, Total Resident Teaching Salary Cost, and Average 9-10 Months Instructional Salary Cost Per FTE Resident Teaching Faculty, Fall 1983 91

Number of Faculty, Average Nine-Month Salary, Average Years of Experience at Institution of Present Employment, Average Total Years of Higher Education Experience, and Average Age of Full-Time Faculty Members Engaged Exclusively in Resident Instruction by Academic Rank, Highest Degree Held, and by Sex, Fall 1983:

INTRODUCTION

This publication is the second one combining reports which in previous years were published by the West Virginia Board of Regents as four separate reports. Chapter 1, "Enrollment," presents the headcount and full-time equivalent (FTE) data reported by the State's public and private institutions of higher education for the Fall 1983 term. Chapter 2, "Degrees Conferred," presents an analysis of degrees awarded by the State's public and private institutions of higher education during the 1982-83 academic year. Chapter 3, "Faculty Characteristics," presents information about the full-time and part-time faculty members in West Virginia's public colleges and universities, as of the Fall 1983 term. (The characteristics analyzed in Chapter 3 include academic rank, highest earned degree, years of experience, age, sex, and average nine-month salary.) Chapter 4, "Fiscal Data," presents data on revenues and expenditures at the State's public colleges and universities during the 1982-83 fiscal year.

The 16 public and the 10 private institutions of higher education which reported data for inclusion in this publication are listed on page ii and a map showing their locations appears on page iii. The Board of Regents is grateful for the cooperation of the private institutions in submitting the data on enrollment and degrees conferred which are reported in Chapters 1 and 2.

CHAPTER 1

ENROLLMENT (FALL 1983)

The following student enrollment reports, which are based on data submitted by the State's public and private institutions of higher education, were current as of the days following registration for the Fall 1983 semester. Ten year trends in headcount and full-time equivalent enrollment, as well as a distribution by sex, residence, and attendance status, are also included.

Headcount enrollment is a count of the number of individual students attending a college or university. The tables in this Chapter summarize credit headcount enrollment in all institutions of higher education in West Virginia. In addition, each institution's enrollment is reported by sex of student, attendance status, level, and residence.

The full-time equivalent (FTE) enrollment reported for each public institution of higher education is the nationally accepted statistic used to equate to the norm those student workloads which are greater or less than the average full-time student workload. The full-time equivalent enrollment in the medical schools of Marshall University and West Virginia University, reported in Tables 1.12 and 1.13, represents the headcount enrollment reported by those instutution.

Definitions of the various enrollment categories used by the Board of Regents are presented on the immediately following pages.

DEFINITIONS

Advanced Graduate Student. A graduate student who is enrolled in a doctoral degree program.

Bachelor's Credit Student. An undergraduate enrolled in a two-year college transfer program or in a four-year or five-year bachelor's degree program who has not completed the sophomore year.

Career-Technical Student. A lower-level undergraduate enrolled in a postsecondary certificate, diploma, or associate degree program of less than four years which prepares for immediate employment.

First Professional Course. A course designed primarily for students enrolled in a program leading to a first professional degree.

First-Professional Student. A student enrolled in a program leading to the first professional degree in Dentistry (D.D.S.), Law (J.D. or LL.B.), or Medicine (D.O. or M.D.).

First-Year Graduate Student. A graduate student who is enrolled in a master's degree program or who has completed fewer than 36 semester hours of graduate credit.

Foundation Level Course. A course which is preparatory for admission to a career-technical, college transfer, or four-year or five-year bachelor's degree program.

Full-Time Student. A student enrolled for credit equal to at least 75 percent of the normal full-time load. For most undergraduates this is 12 semester hours; for graduate students, nine semester hours.

Full-Time Equivalent (FTE) Student. A statistic derived from the student-credit-hour productivity of an institution.

A. Undergraduate FTE: the equivalent number of students derived by dividing by 15 the total undergraduate student credit-hours produced per semester in foundation, lower-level, and upper-level courses.

B. First Professional FTE: the equivalent number of students derived by dividing by 15 the total first professional student credit-hours produced per semester in first professional courses (Law only).

C. Graduate FTE: the equivalent number of students derived by dividing by 12 the total graduate student credit-hours produced per semester in graduate courses.

D. Medical FTE: the same as the headcount enrollment (Dentistry and Medicine only).

Graduate Level Course. A course designed for students enrolled in a graduate degree program and normally limited to students holding a bachelor's degree.

Graduate Level Student. A student enrolled in a master's or doctoral degree program other than the first professional degree programs in Dentistry, Law, and Medicine.

Headcount. A student enrolled in one or more courses for credit.

In-State Student. For West Virginia public institutions, a student who is assessed the tuition and fees specified for a resident of West Virginia; for West Virginia private institutions, a student who lists West Virginia as the permanent address prior to enrolling in the institution.

Lower-Level Student. An undergraduate enrolled in a postsecondary career-technical, certificate, diploma, or associate degree program, in a two-year college transfer program, or in a four-year or five-year bachelor's degree program who has not completed the sophomore year.

Non-Credit Student. A student who is enrolled only in non-credit courses or who is auditing credit courses.

Out-of-State Student. For West Virginia public institutions, a student who is assessed the tuition and fees specified for a non-resident of West Virginia; for West Virginia private institutions, a student who does not list West Virginia as the permanent address prior to enrollment in the institution.

Part-Time Student. A student enrolled for credits equal to fewer than 75 percent of the normal full-time load. For most undergraduates, this would mean fewer than 12 semester hours.

Unclassified Student. A student who cannot be classified by level. Many unclassified students are permitted to take a limited or special selection of degree-credit courses without regard to requirements for a degree.

Undergraduate Student. A student who has not yet obtained a bachelor's degree.

Upper-Level Course. A course designed for juniors and seniors which is not normally open to freshmen and sophomores.

Upper-Level Student. An undergraduate enrolled in a bachelor's degree program who has completed the sophomore year.

ENROLLMENT TRENDS

The total credit headcount enrollment in the West Virginia public institutions of higher education has remained fairly constant since 1975, with year-to-year fluctuations of no more than four percent. A strong growth period had been experienced from the early 1960's to 1975, with total enrollment increasing by 123 percent between 1964 and 1975. The enrollment in West Virginia private institutions has remained essentially constant since 1972, having experienced a growth during the 1960's which peaked in 1968.

The ten-year trends for public institution show the largest fluctuations in enrollment in the two-year institutions, which experienced a peak in 1975. The four-year colleges generally experienced slow and steady growth, with the enrollment leveling since 1980. All categories of the public institutions experienced a dip in enrollment in 1978, most sharply observed in the community colleges.

Since 1975, the distribution of enrollment by sex has changed substantially, dropping from 54.3 percent male in 1975 to 47.2 percent male in 1983. The reversal from a male to female majority occurred in 1978, with the number of female students continuing at more than 50 percent since that time.

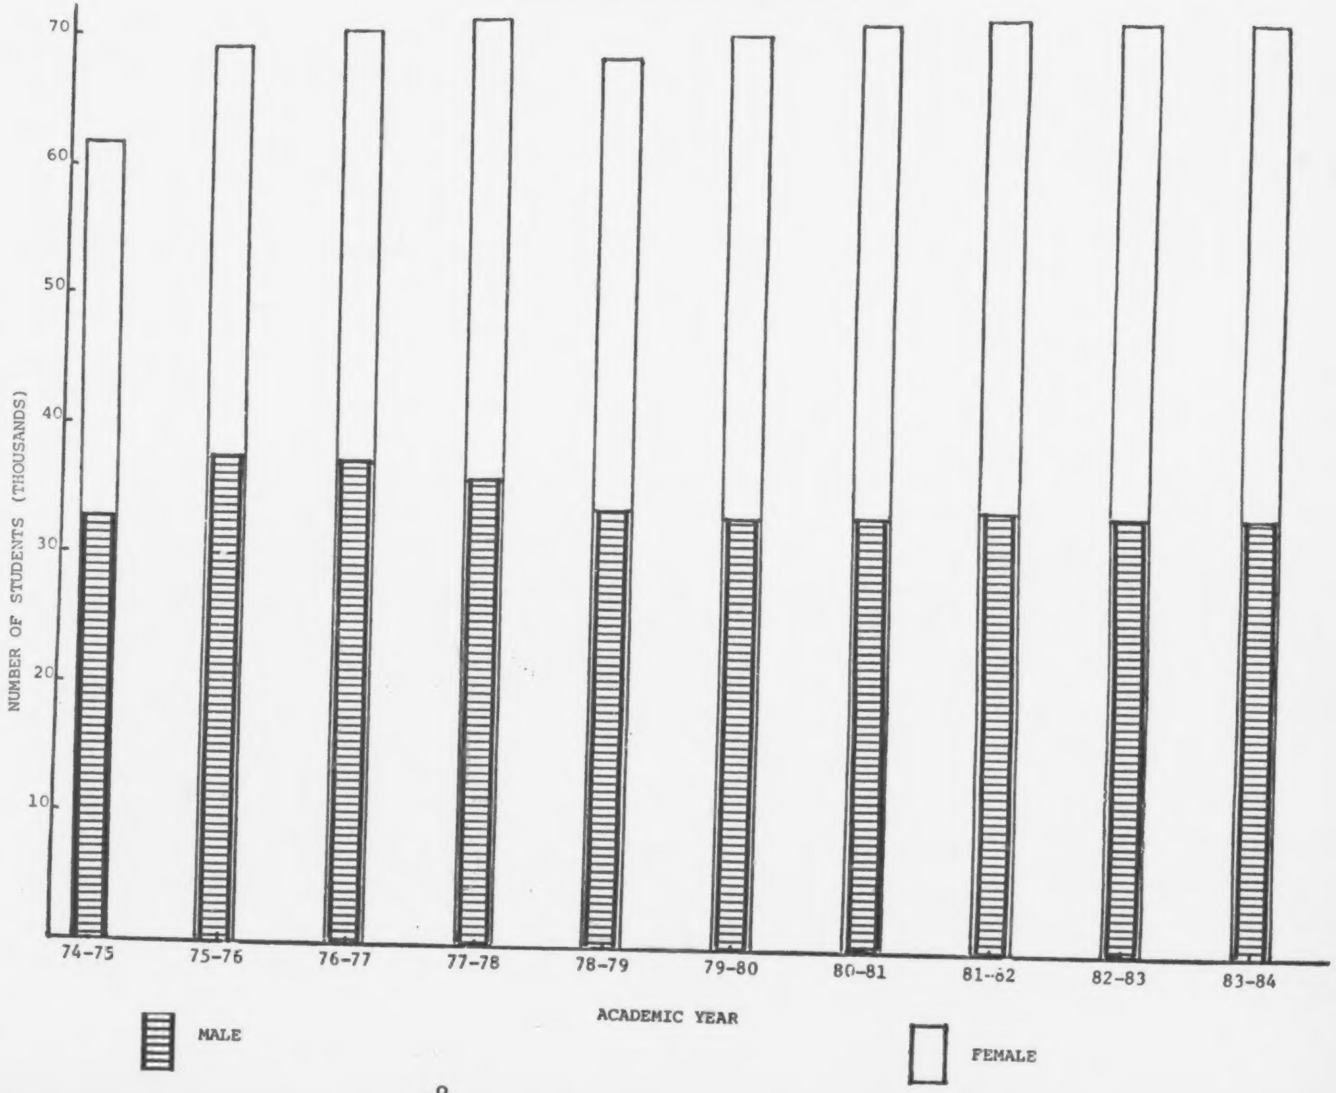
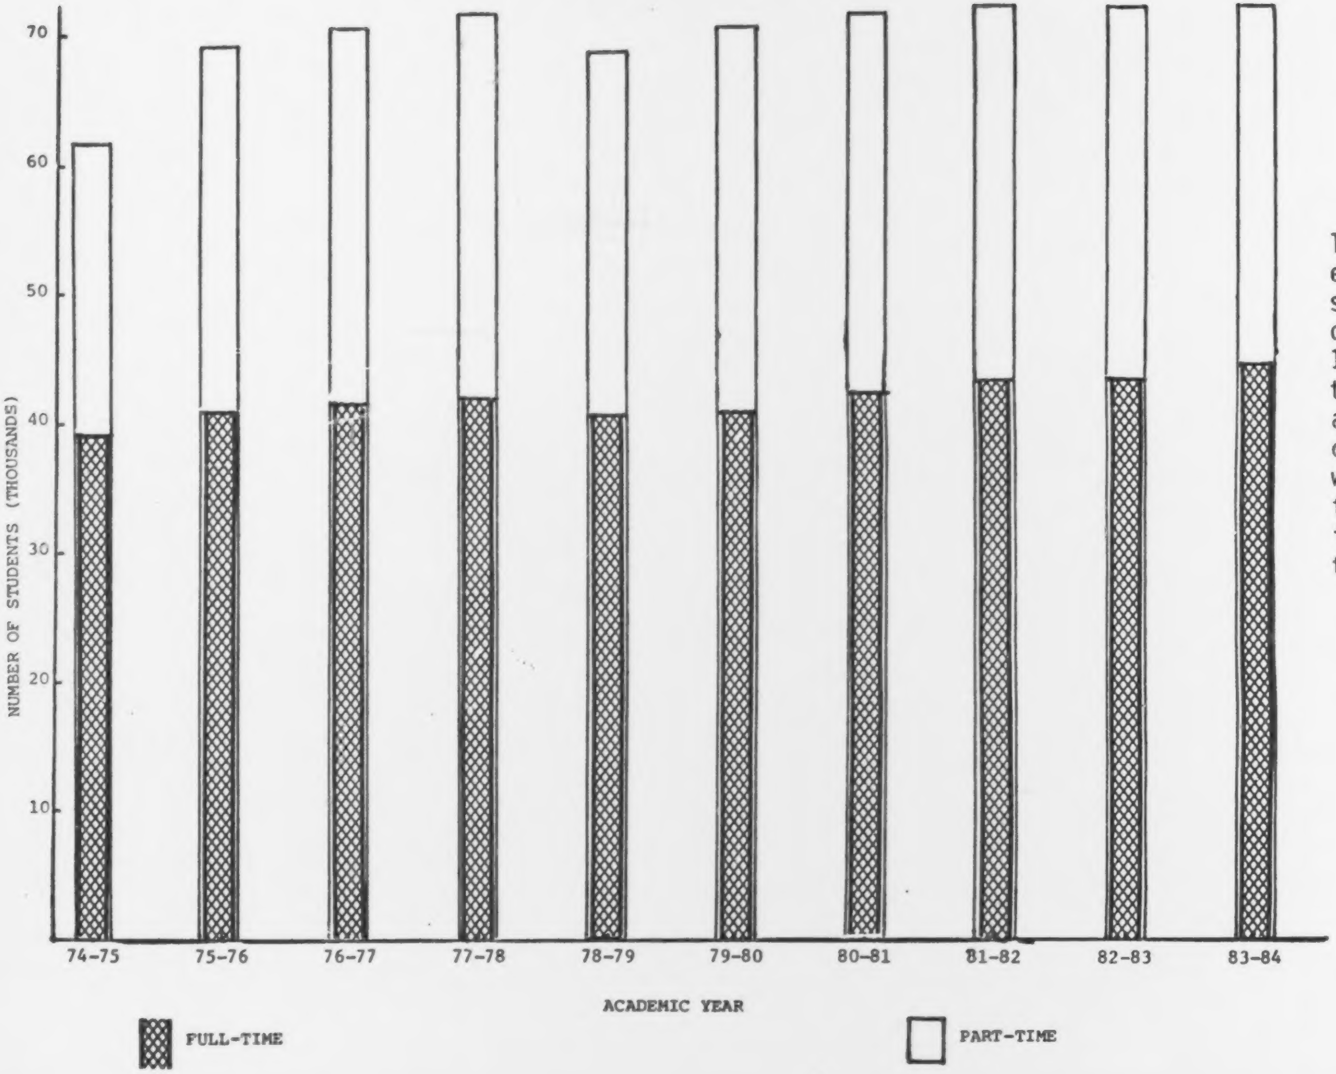
ALL WEST VIRGINIA PUBLIC INSTITUTIONS



FALL SEMESTER HEADCOUNT ENROLLMENT
DISTRIBUTION BY ENROLLMENT STATUS
ALL WEST VIRGINIA PUBLIC INSTITUTIONS



The West Virginia public institutions have experienced a small but steady growth in the number of full-time students since 1978. The ratio of full-time to part-time students also has increased slightly during the same period, with the percentage of full-time students comprising 61.6 percent of the total in 1983.

The full-time equivalent (FTE) enrollment, which is the principal measure of total services to students by the West Virginia public institutions, has increased by 16 percent over the last ten years. There were two five-year periods of growth followed by leveling, beginning in 1973 and 1978, respectively.

It should be noted that the sharp decrease in headcount enrollment occurring in 1978 is reflected as only a slight drop in full-time equivalent enrollment. The drop in headcount, felt most sharply by the community colleges, was principally in part-time students.

The enrollment data for Fall, 1983 shows no sharp changes in distributional pattern from that observed in the analysis of ten-year trends.

The West Virginia private institutions show a larger proportion of female students than do the public institutions. Predictably, the proportion of West Virginia residents is larger in the public institutions (80.78 percent) although the percentage of in-state students in the private institutions (61.20) is also relatively high. The proportion of students who are sophomores, juniors and seniors is similar in the public and the private sectors. The large fraction of graduate and professional level students in the public institutions primarily reflects the services of West Virginia University, Marshall University, and West Virginia College of Graduate Studies as the principal providers of graduate and professional education in West Virginia.

The distribution by age of students enrolled in the Fall, 1983 in West Virginia public institutions shows that almost half (46.6 percent) of all students are older than the traditional college age of 18-22. Nearly one-fourth (24.0 percent) are age 30 or older. The large fraction of adult students emphasizes the importance for awareness of adult student market and needs in academic program planning.

CHAPTER 2

DEGREES CONFERRED (1982-83)

The tables in this Chapter present an analysis of the degrees conferred during the 1982-83 academic year by the public and private institutions of higher education in West Virginia, as well as ten-year trends in total degrees conferred.

Naturally accepted definitions and principles have been used in the collection and classification of data for this Chapter. The West Virginia Board of Regents Form BOR DA-1 (Degrees Awarded, 1982-83) was used to collect the data. The 29 academic areas of study included in the report (excluding the West Virginia Board of Regents' B.A. degree program) have been extracted from the publication by the National Center for Educational Statistics, A Classification of Instructional Programs. Definitions of the various degrees are as follows:

Associate Degree. A degree awarded upon completion of at least two, but fewer than four, years of work beyond high school.

A. Career-Technical - Associate degree programs in technological and occupational areas that are designed primarily to prepare for immediate employment.

B. Pre-Baccalaureate - Associate degree programs that are designed to provide a two-year general education and/or to be chiefly or wholly creditable toward a bachelor's degree.

Bachelor's Degree. A degree granted upon completion of an educational program requiring at least four, but not more than five, years of academic work in the liberal arts, sciences, or professional fields.

First Professional Degree. A degree which signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance, and a total of at least six academic years of college work for completion. First professional degrees included in this report are the Doctor of Dental Surgery (D.D.S.), the Doctor of Medicine (M.D.), the Doctor of Osteopathy (D.O.), and the Juris Doctor (J.D.).

Master's Degree. A degree customarily granted upon successful completion of one (sometimes two) academic years of work in the liberal arts and sciences beyond the bachelor's degree. The master's degree in professional fields is an advanced degree beyond the first professional, but below the Ph.D. degree.

Doctoral Degree. The highest academic degree in a given discipline or profession, based generally on three or more years of graduate work, satisfaction of a foreign language requirement, and completion of a special study resulting in a dissertation approved by a committee of the faculty.

The total number of degrees conferred by the West Virginia public institutions during the past ten years has remained remarkably constant at approximately 10,510. The most noteworthy trend is the generally steady increase in the number of associate degrees conferred. The number of bachelor's degrees decreased for five of the first six years of the ten-year period, reaching a low point in 1978-79. The number of first professional degrees awarded has nearly doubled ouver the ten-year period, reflecting the development of two additional medical schools, as well as the growth of the medical and law schools at West Virginia University.

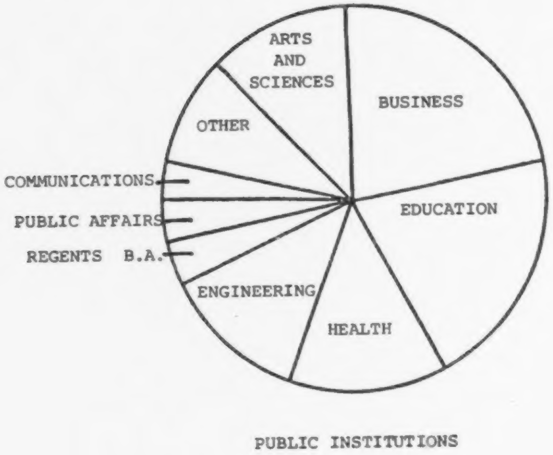
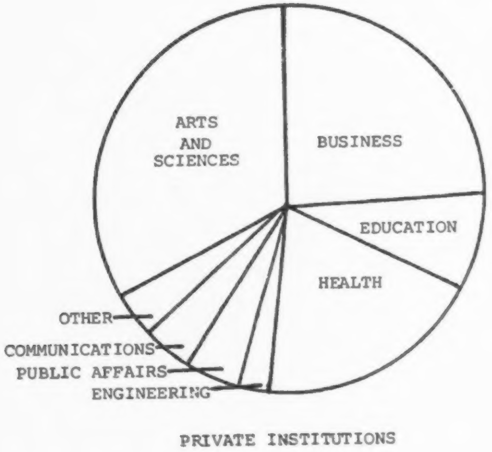
DISTRIBUTION OF DEGREES CONFERRED BY ACADEMIC AREA OF STUDY

West Virginia Institutions of Higher Education
Total Degrees, All Levels, 1982-83

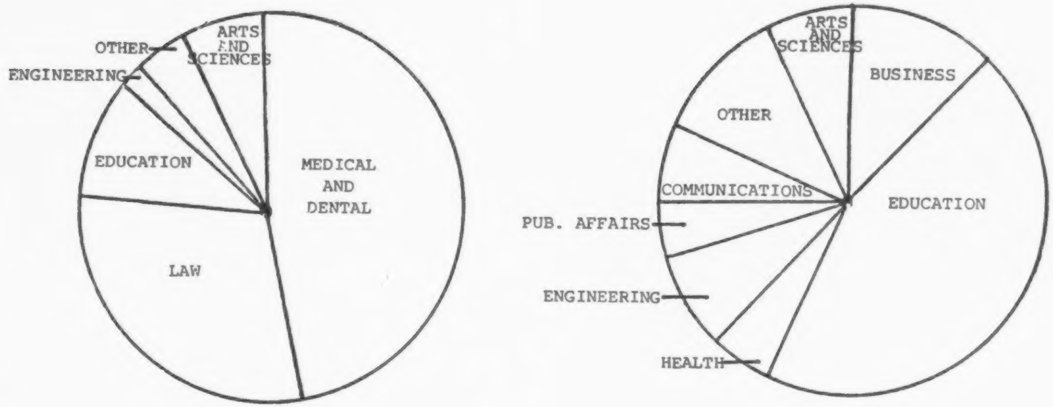




Career fields dominate the distribution of degrees conferred by academic area of study. In the West Virginia public institutions, degrees in the traditional liberal arts and sciences comprise approximately 10 percent of all degrees awarded. The large proportion of degrees in education conferred by the public institution reflects the large number of master's degrees awarded in education by the public institutions, compared with very few by the private institutions. Similarly, the larger proportion of degrees in the arts and sciences awarded by the private institutions actually reflects fewer engineering degree programs available in the private sector, coupled with a larger number of career-oriented graduate degrees awarded by the public sector.

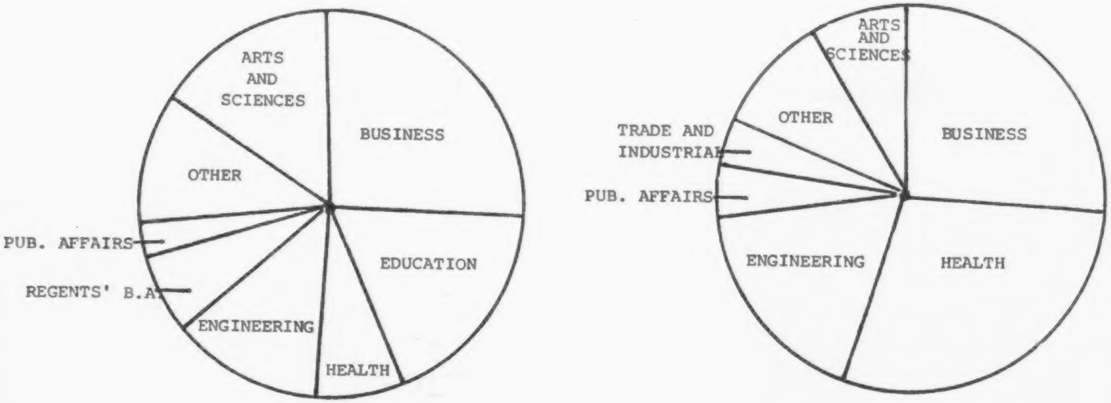
DISTRIBUTION OF DEGREES CONFERRED BY ACADEMIC AREA OF STUDY

West Virginia Public Institutions of Higher Education, 1982-83



DOCTORAL AND FIRST PROFESSIONAL

MASTER'S



BACHELOR'S

ASSOCIATE

The preponderance of career fields in the degrees awarded by the West Virginia public institutions in 1982-83 is evident at all degree levels. Predictably, degrees in the arts and sciences make up a larger fraction of bachelor's degrees than of other degree levels. Also as expected, degrees in business and the health professions are predominant at the associate level, while education is the largest field at the master's degree level.

The distribution by sex of total degrees granted is relatively balanced, with 51.6 percent of all degrees at all levels awarded to females in 1982-83. At the doctoral and first professional level, males are predominant, while a substantial majority of all associate degrees were awarded to females. The distribution at the baccalaureate level is approximately even, with males receiving 51.4 percent of bachelor's degrees awarded.

CHAPTER 3

FACULTY CHARACTERISTICS (FALL 1983)

The West Virginia Board of Regents presents in this Chapter analyses of faculty characteristics and remuneration at each West Virginia public institution of higher education. All analyses are based on the Fall term of the 1983-84 academic year.

Faculty members included in this report are those individuals engaged in instruction, either on a full-time or part-time basis, who were responsible for, or in charge of, a class, quiz, drill, or laboratory section. Teaching assistants, teaching fellows, lecturers, and laboratory assistants are included only if they meet the preceding criteria. Excluded are student assistants, teaching assistants, and other personnel engaged in subordinate functions.

Faculty of the following classifications have been excluded from this Chapter: faculty in the medical schools, faculty contributing their services, and faculty compensated from funds not controlled or disbursed by their respective institutions. Included in this last group are military science instructors, instructors receiving no pay, and faculty paid through the auspices of other public agencies at no expense to the institution.

DEFINITIONS

Full-Time Faculty Memebers. A faculty member employed by the institutuion in a full-time capacity, either full-time teaching or teaching plus additional administrative duties. In the latter case, the full-time faculty member is engaged in teaching at least one course.

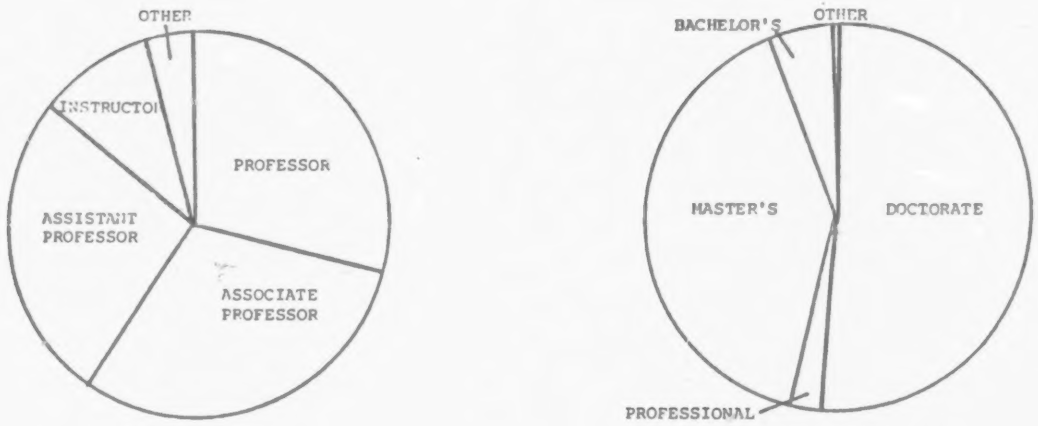
Full-Time Faculty Member Engaged Exclusively in Instruction. A faculty member employed by the institution in a full-time capacity, whose duties lie exculsively in teaching rather than partially in administration.

Part-Time Faculty Member. A faculty member employed to teach in a part-time capacity, usually employed on a per-course basis. Generally, part-time faculty do not receive fringe benefits, and renumeration, being based only on teaching load rather than on advising and administrative duties, is at a substantially lower rate than that of full-time faculty.

Highest Degree Held by Faculty. The fraction of faculty possessing a terminal degree (doctoral or professional) is one indicator of academic quality of an institution. The proportion of faculty with a doctorate also influences the expenditures for faculty salaries.

Nine-Month Salary. A typical academic year contract, which may be for nine or ten months of duties to the institution. Whether the contract salary is paid in nine or twelve monthly increments is not relevant. The amounts shown under nine-month salary data do not include summer school salaries, which are not a part of the regular academic year.

ACADEMIC RANK AND HIGHEST DEGREE HELD
ALL FULL-TIME FACULTY TEACHING AT LEAST ONE CLASS



ACADEMIC RANK

HIGHEST DEGREE HELD

WEST VIRGINIA PUBLIC INSTITUTIONS
FALL 1983

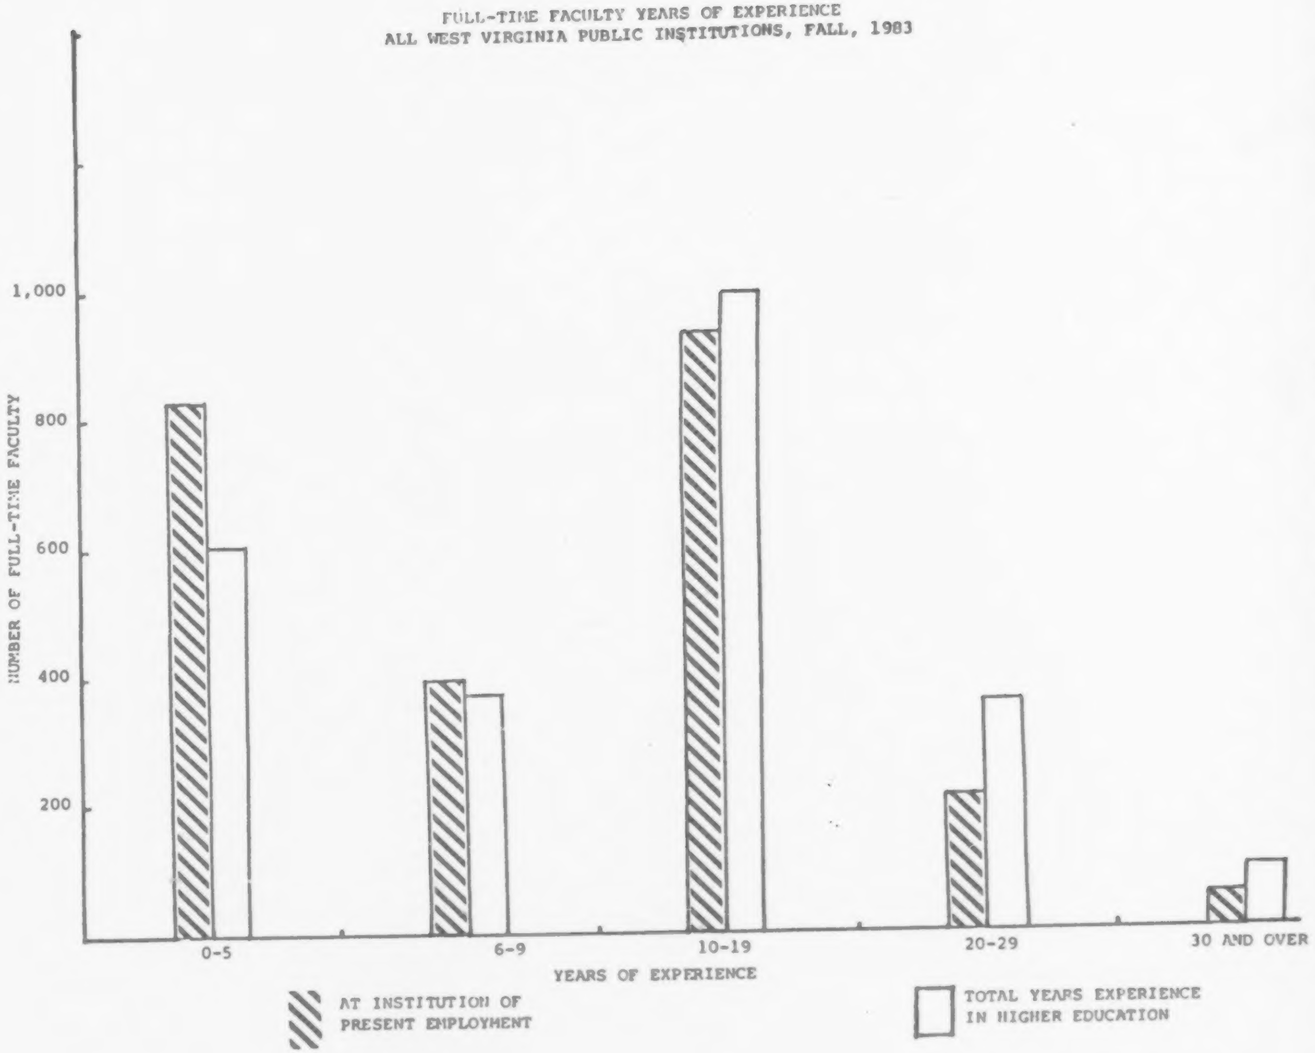
The two types of distribution shown for full-time faculty in West Virginia public institutions are somewhat interrelated. Academic rank is generally a function of the highest degree earned by the faculty member as well as of the years of service. For example (see page 122), 88 percent of all full-time teaching faculty with the rank of professor possesses a doctorate or professional degree. Conversely, only five percent of instructors and 33 percent of assistant professors have degrees above the master's level. The 12 percent of professors whose highest degree is a master's degree have an average of 21 years of experience.

The proportion of faculty with a doctorate and of the higher academic ranks is directly related to salary costs for the institution. The same criteria of highest degree and academic rank are generally accepted indicators of quality of academic programs.

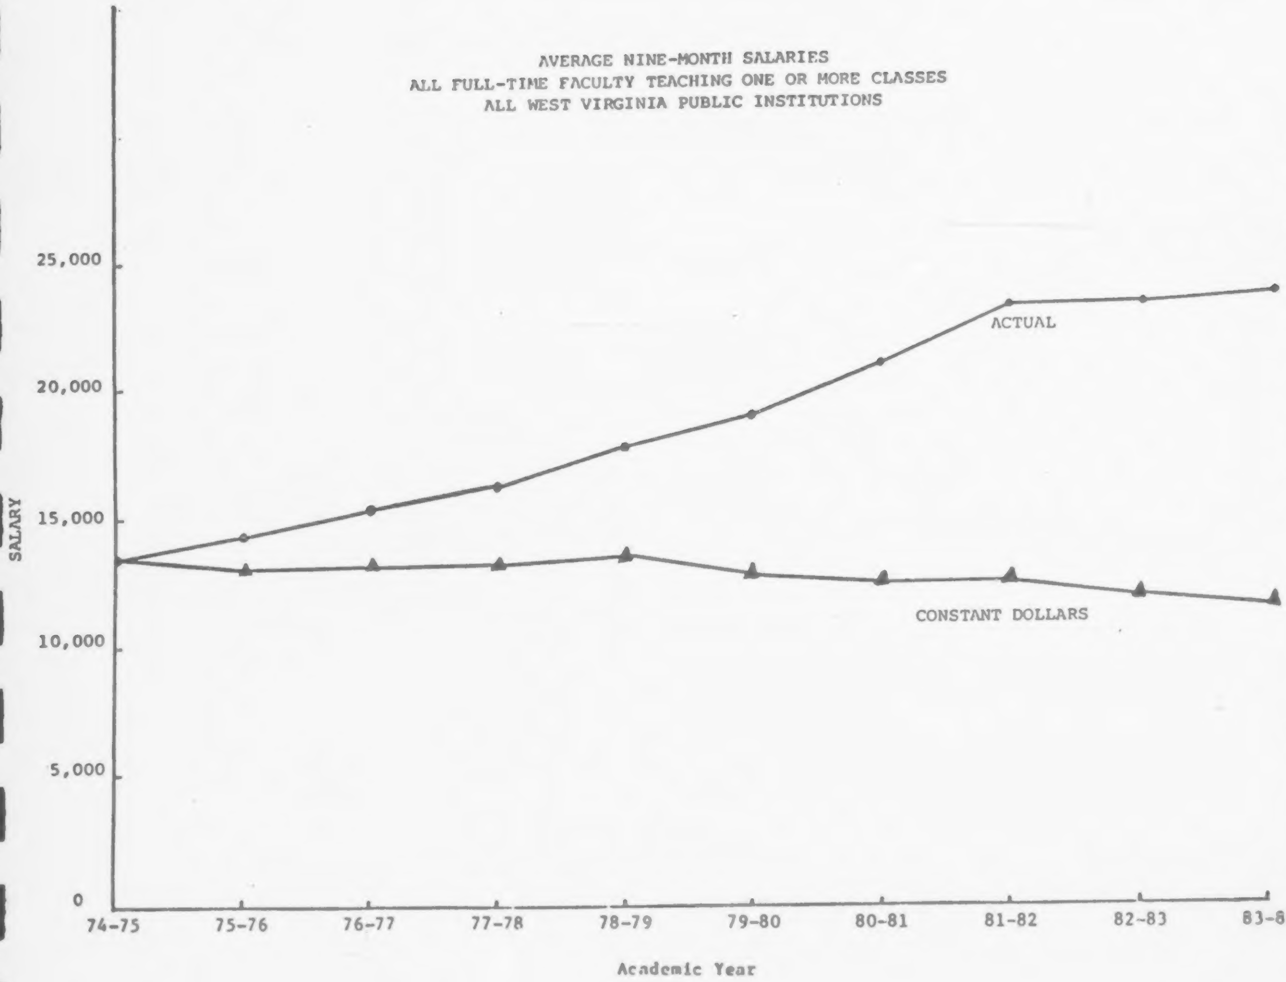
The distribution of the total number of full-time faculty by number of years of experience differs somewhat depending on whether one considers total teaching experience or length of service at the institution of present employment.

When the years of experience at the institution of present employment are considered, the average number of years of service for full-time faculty is 10, with approximately one-third of all faculty having spent five years or less at their present institution.

When total years of teaching experience is considered, the average years of experience for full-time faculty is 13, with less than one-fourth of all faculty having five or fewer years of teaching experience, and with nearly one-fifth of all faculty having 20 or more years of teaching experience.



FULL-TIME FACULTY YEARS OF EXPERIENCE
ALL WEST VIRGINIA PUBLIC INSTITUTIONS, FALL, 1983



A study of ten-year trends (see page 89) shows that the average academic year salaries of full-time faculty in the West Virginia public institutions has remained essentially level for the last three years. In constant dollars, based on national average consumer price index information, the salary average stayed approximately level with inflation for the first five years of the ten-year period, and has generally declined for the last five years.

Comparative data from the National Center for Education Statistics for fiscal 1980-81 show that West Virginia ranked 47th out of the 50 states and D.C. in average nine-month salaries of full-time faculty, all ranks combined. The absence of significant increases for West Virginia faculty since that time suggests that the West Virginia's position with respect to national averages of faculty salaries has not improved.

CHAPTER 4

FISCAL DATA (1982-83)

Since its inception in 1969 the Board of Regents has played an active role in the management of all facets of public higher education. Among its many responsibilities is the supervision and control of the financial affairs of its sixteen institutions. This thirteenth annual report of current operating revenue and expenditures attempts to summarize the financial condition and current operations of the State System of Higher Education. Information presented in this report is drawn from financial reports completed by each institution shortly after the close of the fiscal year. The period covered by this report extends from July 1, 1982 through June 30, 1983.

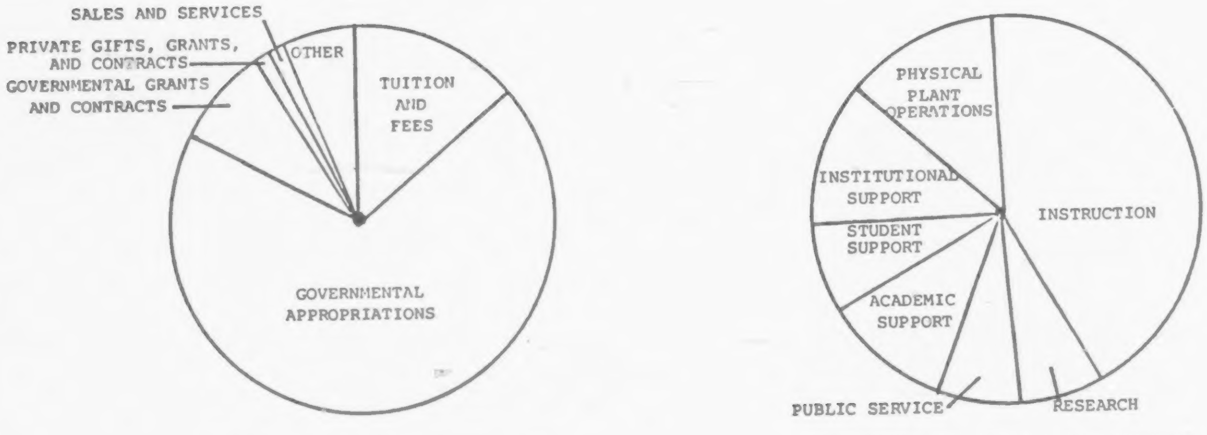
By design, this report deals with a discussion of current operating revenue and expenditures. Therefore, certain special fund groups such as Loan Funds (student loans), Plant Funds (new construction, bond principal and interest, property acquisition, etc.), Agency Funds (institution acting as financial agent for payor) and the like have been ommitted. Current funds are categorized as follows: Educational and General, Auxiliary Enterprise, Student Aid, and Medical Schools and Medical Center and will be further defined and classified in the text of this report.

Wherever possible, tables in this report attempt to group similar institutions. In West Virginia, the eight four-year colleges and three community colleges constitute similar groups, while the two universities, the College of Graduate Studies, and the branch college are essentially dissimilar. In addition, the Marshall University School of Medicine, West Virginia School of Osteopathic Medicine, and the West Virginia University Medical Center are inherently different, and although presented together the data should not be used for comparative purposes.

Although certain comparisons among institutions are possible, and often beneficial, the reader should recognize that any interpretations drawn may be distorted due to differences in enrollment, academic programs, funding levels, geographic locations, faculty characteristics, and other factors. Institutions may also vary with respect to the degree to which they attempt to feed, house, and provide services of a noneducational nature to students, faculty, and staff.

Chapter 4 is divided into four basic sections. The first provides a summary of the total operations of the State System of Higher Education. The second and third sections contain detailed analysis of educational and general revenue and expenditures respectively. The fourth section provides a summary of other revenue and expenditures.

DISTRIBUTION OF EDUCATIONAL AND GENERAL REVENUES AND EXPENDITURES



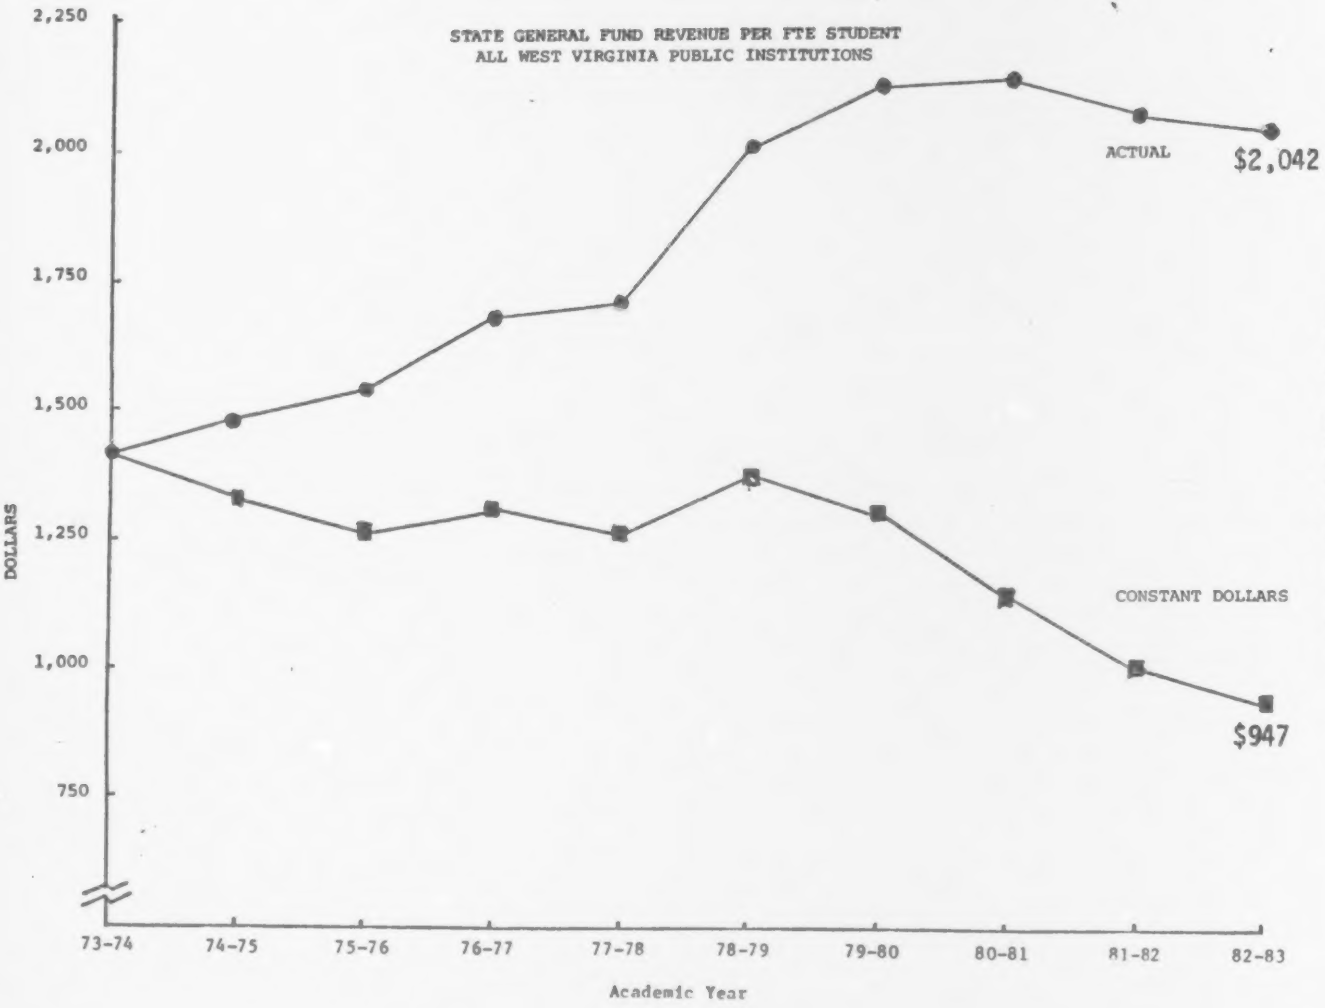
EDUCATIONAL AND GENERAL REVENUES

EDUCATIONAL AND GENERAL EXPENDITURES

ALL WEST VIRGINIA PUBLIC INSTITUTIONS
FISCAL YEAR 1982-83

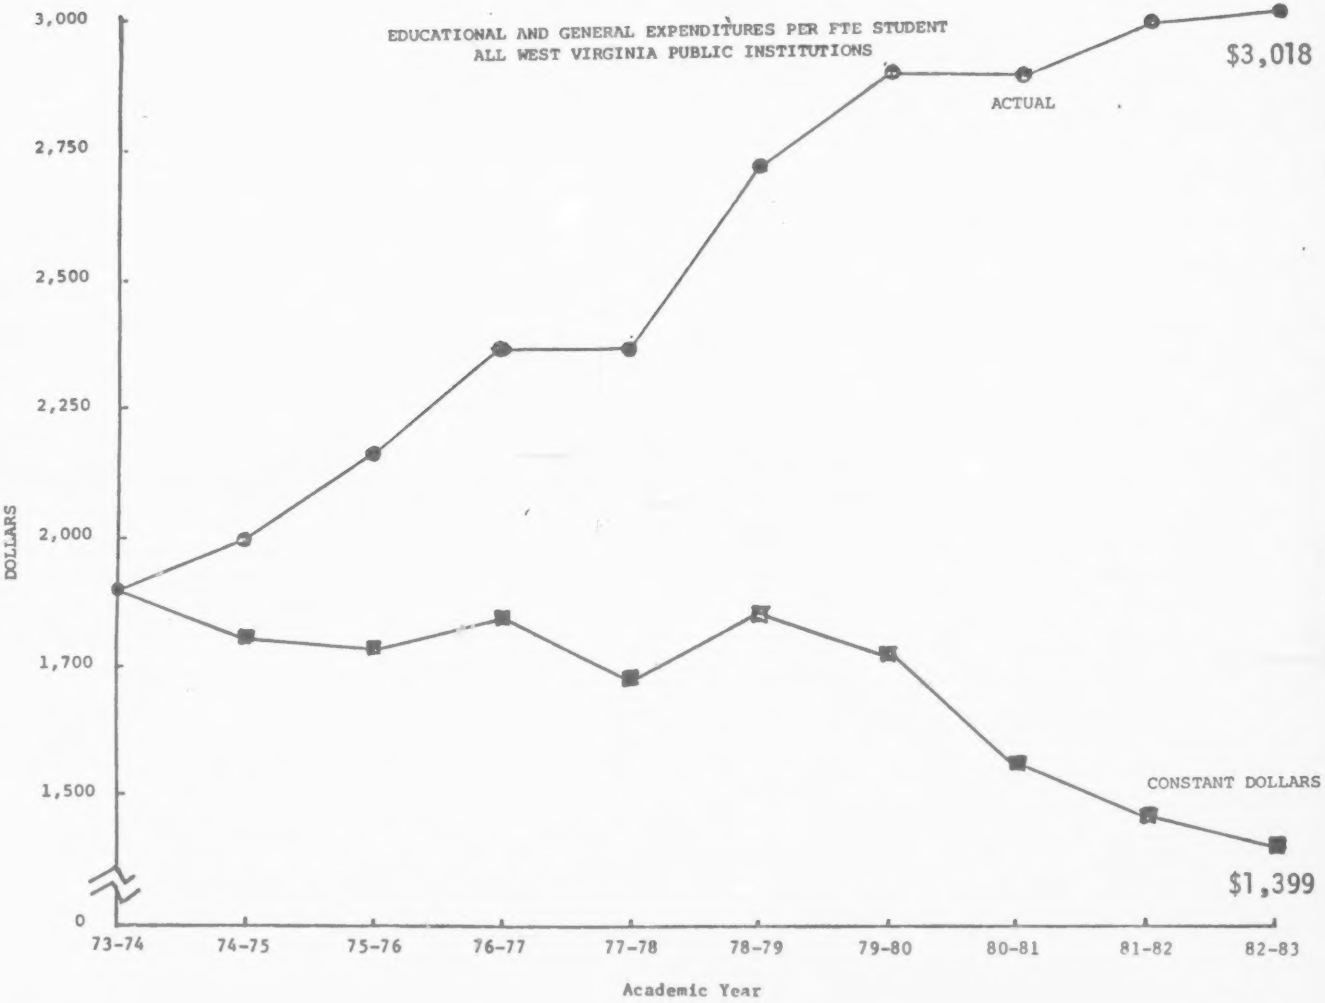
The largest single component of Educational and General (E&G) revenues is the State General Fund appropriations, comprising approximately two-thirds of E&G revenue. Although tuition in the West Virginia four-year colleges and universities is dedicated to capital expenditures, certain fees, including HERF fees, are E&G revenue. Community colleges also are permitted to retain tuition as E&G revenue.

The Instruction category is, predictably, the largest component of E&G expenditures. Both Instruction and Research consist principally of faculty salaries, and represent the direct educational expenditures, as distinguished from the educational support services. These two categories of direct educational costs make up approximately 50 percent of all E&G expenditures.



State General Funds revenues comprise approximately two-thirds of Educational and General revenues. The State General Fund revenue per FTE student has remained essentially constant for the past five years in actual dollars, and has decreased dramatically in constant dollars, based on national annual average Consumer Price Index data.

The Educational and General (E&G) expenditures per Full-Time-Equivalent student have remained nearly level over the past four years in actual current dollars, and have declined steadily since fiscal 1979 in constant dollars, based on national annual averages for the Consumer Price Index. In 1980-81, average E&G expenditure per FTE student in baccalaureate institutions in West Virginia was only 57.7 percent of the national average for comparable institutions.



SECTION I. SUMMARY OF TOTAL OPERATING REVENUE AND EXPENDITURES

Tables 4.1 and 4.2 on pages 130 and 131 reflect the total operating revenue and expenditures of the State System of Higher Education for fiscal year 1982-83. They are presented and categorized as follows:

Educational and General operations of the institutions include the basic Instruction, Research, and Public Service activities as well as the necessary ancillary services of Academic Support, Student Services, Institutional Support, and Physical Plant Operations.

Auxiliary Enterprise operations primarily involve providing services of a non-educational nature to students, faculty and staff. Even though the existence of these services is important, they are not directly related to the fulfillment of the institutions' educational objectives. Included among these operations are housing and dining, intercollegiate athletics, student unions, bookstores, and parking and transportation systems.

Medical Schools and Medical Center relates to the operation of the State's three medical schools, its teaching hospital and clinics, and necessary support services.

Student Aid relates to gifts, grants, endowments, or other sources of income which are specifically designated for scholarships, grants, awards, and the like.

METHODS OF ANALYSIS

There are two commonly utilized methods of analyzing educational and general revenue and expenditures. One compares the percentage relationship of each revenue source or expenditure function to total revenue or expenditures. This technique reflects the comparative degree of support provided by a specific revenue source. For expenditures, it indicates the level of support for one function compared to that given another function, and also reflects the emphasis a particular institution places on various expenditure categories.

A second approach is to consider revenue and expenditures on a per full-time equivalent (FTE) student basis. The FTE student is the nationally accepted means to translate student credit hours produced by an institution into a more manageable statistic. This statistic is most useful in comparing similar type institutions. It should be recognized that some educational and general activities, such as Research, Public Service, and Physical Plant Operations are not directly related to enrollment.

Tables 4.6 through 4.9 in Section II, and Tables 4.11 through 4.13 in Section III provide percent of total and per FTE comparisons for educational and general revenue and expenditures respectively. For purposes of per FTE comparisons, these tables use an annualized count of full-time equivalent students, which is comprised of the average of Fall and Spring semester FTE enrollment added to Summer FTE enrollments.

SECTION II. EDUCATIONAL AND GENERAL REVENUE

Educational and General operating revenue is typically classified according to source. This report classifies educational and general revenue according to six major sources. A brief description of each source follows:

1. Tuition and Fees--Revenue available for use by an institution from fees assessed students for educational and general purposes is included in this category. Included are those prescribed fees that must be paid by the student as a condition for applying for admission, enrolling in the institution, enrolling in specific courses, and graduation from the institution. Also included are those student fees allocated by the Board of Regents to supplement institutional operating budgets. Excluded from this report are all other fees restricted by West Virginia statute from use as operating revenue.

2. Governmental Appropriations--Includes allocations to the colleges and universities by the Board of Regents from the State Legislature's annual operating appropriation. These allocations are restricted by the State budget categories of Personal Services, Current Expenses, Repairs and Alterations, Equipment, and certain other items. Amounts that were unspent and reverted to the State Treasury at the end of the fiscal year are deducted from the original allocations. Also included are federal appropriations received by the State's Land Grant institution, West Virginia University.

3. Governmental Grants and Contracts--Includes revenue received from local, state, or federal government agencies to conduct specific activities or programs, or to provide designated services.

4. Private Gifts, Grants, and Contracts--Revenue received from private individuals, businesses, industries, foundations, and the like which is available for expenditure for educational and general purposes is included in this category.

5. Sales and Services--Includes revenue received by the institution from the sale of goods or services produced in conjunction with its educational program such as agricultural and dairy products, films, publications, and the like.

6. Other Income--Revenue available for educational and general purposes which is not classified elsewhere, such as interest income, is included here.

Tables 4.5 through 4.9 on pages 135 through 139 provide information and comparisons with respect to educational and general revenue.

* State General Fund Revenue comprises the major source of Governmental Appropriations.

SECTION III. EDUCATIONAL AND GENERAL EXPENDITURES

Expenditures for educational and general purposes include those expenditures for Instruction, Research and Public Service, as well as the necessary ancillary activities of Academic Support, Student Services, Institutional Support and Physical Plant Operations and are defined as follows:

1. Instruction. Includes all expenditures of the instructional departments and schools of the institutions, such as instructional salaries and benefits, office and classroom supplies, equipment, and other related operating costs. This category also includes departmental research which is not separately budgeted or organized.

2. Research. Includes all expenditures for separately organized and budgeted research activities, such as research bureaus, centers, institutes, and experiment stations. This category includes both externally financed contractual research and institutionally organized and financed research.

3. Public Service. Includes all expenditures for noninstructional activities designed primarily to service the general public, including the costs of all conferences, workshops, public radio and television operations, cooperative extension services, and similar activities.

4. Academic Support. Includes expenditures designed to assist the instituion in meeting its basic instruction, research, and public service mission by providing support services such as libraries, media and learning centers, academic computer support, as well as general academic administration, and faculty and curriculum development activities.

5. Student Services. Includes all expenditures for services to students, such as admissions and registrar's offices, guidance and counseling services, placement services, health services, financial aid administration, student administration, and the like.

6. Institutional Support. Includes all expenditures of the general executive and administrative offices serving the institution as a whole as well as those expenditures of a general character not relating to any specific division or segment of the institution.

7. Physical Plant Operation and Maintenance. Includes all expenditures for the operation and maintenance of educational and general buildings and grounds such as utilities, and custodial services.

SECTION IV. OTHER REVENUE AND EXPENDITURES

Auxiliary Enterprise. Revenue and expenditures of the various colleges and universities from operations of a noneducational nature are categorized as Auxiliary Enterprise and summarized in Tables 4.14 and 4.15 on pages 146 and 147. The six major categories of Auxiliary Enterprises include Housing and Dining, Student Union, Bookstore, Intercollegiate Athletics, Parking and Transportation, and Other.

The degree to which an individual institution provides Auxiliary Enterprise services to its students is dependent to a lage extent on its size and type. An institution with a large resident population must necessarily provide more comprehensive services than one in which the majority of students are commuters.

Medical Schools and Medical Center. The West Virginia Board of Regents operates three medical schools as part of the State System of Higher Education, including the Marshall University School of Medicine, the West Virginia School of Osteopathic Medicine, and the West Virginia University Medical Center. Although financial information for the three schools is presented together, no attempt should be made to compare them due to the differences in their educational programs and supporting functions.

Revenue and expenditures in support of medical education in West Virginia is summarized in Table 4.16 and categorized in the same manner as that of regular college and university operations.

Student Aid. Revenue from gifts, grants, endowments, and the like provided for the purpose of assisting individual students in defraying the costs of higher education is categorized as Student Aid. This aid may be in the form of need-based grants, awards for academic excellence, or combinations of these and other factors. Excluded from Student Aid presented in this report are privately administered scholarships and grant programs, such as those normally awarded by private foundations, trusts and institutions, and student loans. Student Aid revenue and expenditures for Fiscal Year 1982-83 are presented in Tables 4.1 and 4.2, on pages 130 and 131.
